RECENT PROJECTS

Hue Power India
Philips Lighting (https://goo.gl/E3K7PQ)

Hue Power India lets Philips hue user retain his last settings across power cycle while also serving general purpose hue app.

Argus
Open Source (https://goo.gl/rDKGnT)

Argus Android makes it hassle free of managing all onboarding related tasks such as Signup/Login/Forgot Password and Social Logins.

Hue for Kids
Personal Project (https://goo.gl/GZ94Vp)

Hue for Kids makes learning futuristic and immersive by making Philips Hue Lights react to actions of a child as he/she gets to know about different colors, fruits, vegetables, vehicles etc.

Velocity- Android Client
Knomatic, Houston

Velocity android is mobile client for their web based app builder. It included generation of dynamic custom forms, and a constraint solver. App was built for mobile as well as tablets.

Direct Energy Account Manager
Direct Energy (https://goo.gl/jTyYx9)

First project as a lead. With this app user can understand his energy bill better and see how he can reduce his use and save money. The Direct Energy App makes it easy to manage his account and energy usage.
